LAKE GROVE - - - OREGON

Wholesale Price List

1949 Crop

We take pleasure in presenting to the trade our 1949 wholesale price list of Northwest grown lily and miscellaneous bulbs for delivery during the coming fall season. We have endeavored to make this list as complete as possible by including all Lily varieties we have available in moderate quantities. Limited quantities of a number of other lilies can be supplied from our stocks and we welcome inquiries concerning any varieties which are in commerce at the present time.

To avoid disappointment, it is suggested that orders be placed as far in advance of the digging season as possible, particularly on the more rare and scarce sorts.

We wish to especially call to your attention several new hybrid lilies which we are offering to the trade for the first time this season. Among these are L. Galahad, L. Red Bird and L. Viking, which are the result of many years of hybridizing work by Dr. E. F. Palmer, Vineland, Ont., Canada. Dr. Palmer has granted us exclusive distribution in the United States of his introductions and after two years' trial of these plants on our own grounds we can offer them without reservation as among the most outstanding contributions to the rapidly expanding list of lily hybrids which we have seen to date. To assist our customers in visualizing these plants we quote the originator's descriptions as follows:

Lilium Galahad: A trumpet lily from several generations of re-crossing of selected hybrids of regale, sulphureum and sargentiae. Sulphur yellow in color. Strong robust grower, hardy, carrying up to 14 blooms on a pyramidal raceme.

Lilium Red Bird: A hybrid showing plant and flower characters of the three species involved in its parentage ((*Croceum x elegans mahogany*) x *tigrinum*). From full size bulbs the stems rise to a height of 5 feet with 16 blooms well arranged in a graceful raceme. The tall, straight, strong stems bear an abundance of healthy glossy leaves. Bulbil former but somewhat less freely than the parent. The blooms are 4½" in diameter, half reflexed and face outwards. Color is a medium dark red with a touch of *tigrinum* rose and spotted darker. Four to five blooms open at once with continuous bloom for three weeks.

Lilium Viking: A nodding, turk's cap lily. Forms bulbils like *tigrinum* but somewhat less freely. Vigorous and grows easily to a height of 6 feet with strong, graceful stems and with 36 or more blooms on a long raceme. The lower bloom pedicels carry secondary buds so that there is open bloom over the whole spike for a considerable period. Continuous bloom for about 3 weeks from about July 12th to early August. Color intermediate between that of *tigrinum* and *willmottiae* (its parents).

We are also pleased to offer a group of special selected Aurelian Hybrids and one name clone "Mei Ling" from this outstanding strain. The originator's descriptions of these lilies follow:

L. Aurelian Hybrids, Special Selections: Wide-flaring lilies somewhat like L. auratum in shape, usually 5 to 6 ins. wide, heavy texture, stout stems, handsome foliage, color from white with yellow or apricot centers through cream, apricot and yellow. Height of mature plants 5 to 6 feet.

L. Mei-Ling: Stout stems about 4½ ft. high. leaves dark green ½ in. wide, 25 or more flowers 3½ ins. wide, cream, shading to old gold in center, flat-faced with recurving tips.

The demand for our "Reference Chart of Lilies for Garden and Greenhouse" has necessitated a second printing, copies of which are available to the trade at a cost of \$1.00 each, postpaid. Quantity prices on these Charts for resale quoted on request.

Our Lily Seed and Planting Stock price list will be sent to you in the early fall.

Color Transparencies as a Sales Aid

During the past three years we have been working on a complete new set of color transparencies for use by our trade customers as a sales aid and for lecture use before garden clubs, etc. We now have available color pictures of the great majority of the lilies offered in our list as well as some allied subjects. These photographs can be supplied in 35mm size to make up into 2 x 2 slides, or as enlarged transparencies for store display use in sizes from 2¼ x 3¼ up. Enlarged prints can also be furnished of the majority of these subjects in either black and white or color in most commercial sizes. A complete list of the subjects available this season will be sent promptly upon your request. We firmly believe that color pictures properly displayed will increase bulb sales sufficiently to offset their cost in a very short time.

QUANTITY RATES ON LILY AND MISCELLANEOUS BULBS

25 Bulbs one variety and size at 100 rate.

250 Bulbs one variety and size at 100 rate less 10%.

Wholesale orders cannot be accepted for less than five bulbs of one variety and size except on items priced per each. Where so priced 1 to 25 bulbs will be supplied at the each price, 25 or more at single bulb price less 10%.

Flowering size indicates bulbs which have flowered at least one season in our nursery. Large or 1st size bulbs are top size for the particular variety.

Terms: 2% for cash with order

or 2% 10 days, 30 days net for established accounts.

Unless otherwise specified, Bulbs will be shipped when dug in the Fall. Approximate first delivery date is indicated for each variety.

All Bulb prices are F.O.B. Oswego, Oregon, and are subject to change without notice.

Our wholesale price lists are intended for the trade only. Kindly do not hand them to amateur growers.

In ordering please specify whether shipment is wanted via parcel post, express, or freight. If wanted by post kindly include postage with remittance.

Orders for growing crops accepted subject to crop failures, shortages, or other matters beyond our control.

Any claims for shortages or errors must be made within five days after receipt of goods as we will not be responsible after that time. We give no warranty, expressed or implied, as to description, quality, productiveness or any other matter in connection with the success of the seeds, bulbs or plants sold by us and will not be responsible in any way in cases of failure, other than to replace bulbs untrue to name. If the purchaser does not accept the goods on these terms, they are to be returned at once.
